

## IDOT - HSIP Presentation & 5% Crash Locations

IDOT will provide an overview and walk-through of the **FY2020 High Way Safety Improvement Program (HSIP)** at the Thursday, March 15, 2018 MCCOM Meeting. Additionally, as part of the application process, IDOT's 5% Crash Locations provide a valuable tool for mapping performance targets and selecting projects for HSIP funding. Staff has created a one question survey to help identify common questions the Council may have in regards to utilizing IDOT's 5% Crash Locations. Please complete the one-question [survey](#) before the March 15, 2018 MCCOM meeting to allow staff to prepare answers beforehand. Please note, the last day to submit HSIP applications is Friday, March 30, 2018 so please bring a draft application and any questions you may have to the meeting.
